Recent Installation

Shackelford Cremation, Inc.

Shackelford Funeral Directors, Selmer, TN

Turn-key project including our new AMC Model #55 complete with 10 body rack system and multi-directional roller scissor lift with built in scale. This new installation increased the capacity of only 3 bodies (pictured below) to a total of 13 with the new Model #55.

Our AMC Scissor-lift with built-in scale and multi-directional roller top.

The Model #55 includes two 5 tier racks, capable of holding a standard cremation box.

Existing 3 body cooler will now serve as overflow.

Series A1000 Custom Rolling Rack System

Custom fabricated to customer specifications.

Let's Get Started!

Available heights from two (2) to eight (8) tiers, lengths from one (1) column to virtually any length the customer requires. Rack is available in various heights, lengths, and widths. Dimensions based solely around the customer's needs and requirements.

Required information when requesting a quote

1. Dimensions of the room Length x Width x Height. Any light fixtures also need to be taken into consideration for height purposes.
2. If using an existing cold storage area, provide the Length x Width of the door.
3. We also require the BTU's of the cold storage space (if using an existing space)
4. We offer full installation services on the A1000 series, if you require installation please let us know in the initial contact.
5. Would you like to take advantage of our 100% financing program? Same day decision available in most cases.

Purchase with a new walk-in or for an existing cold storage space
