

All of our garments are designed with heat sealed edges to prevent leaks. All of our garments are individually wrapped. They can be ordered individually, in clear wrapped packages or in full cases.

## STANDARD MORTUARY GARMENTS

Our *Standard Garments* are made from durable vinyl and make an excellent economical option. They have resilient elastic openings for the ankles, legs, wrists, and waist ensuring a tighter fit. The vinyl material is offered in both white and clear. We have been manufacturing this line of garments for over 20 years.

## PREMIUM MORTUARY GARMENTS

Classic Plastics has formulated an exclusive "soft touch" mortuary garment line. These garments are made from 6 mil Polyolefin. Our *Premium Garments* "soft touch" material provides a quiet, soft feel that works great under clothing. Our Premium Garments are three times tougher than standard vinyl garments providing superior tensile strength. This means no more ripped and torn garments. The *Premium Garments* do not contain chlorine making them Eco-friendly and cremation safe. The Polyolefin material is offered in an opaque color.
