Infinite Innovations:

A Parts Company

Your Source for Luxury Transportation Parts & Accessories

(800) 362-6224 / www.infparts.com

THE #1 LARGEST SUPPLIER OF REPAIR PARTS & ACCESSORIES FOR THE LIMOUSINE & FUNERAL CAR INDUSTRY *Since 1987*

Since 1987, Infinite Innovations has been a leading supplier of auto parts and accessories for the limousine, funeral car, and specialty vehicle industry.

Unlike our competitors, we are the only central stocking warehouse for limousines, hearses, and Sprinter vans authorized by both GM and Ford. This means Infinite is set up with special direct purchasing, ensuring that our customers receive the parts they need at competitive prices.

Whether you are looking for limousine parts, hearse parts, specialty vehicle parts, or chauffeur products and accessories, you will find what you need by browsing through our catalog or contacting one of our specialists.

INTRODUCING THE NEW

Sneeze Guard Safety Shield

A Vehicle Partition That Protects Your Drivers and Passengers from the Spread of Germs

What does our Sneeze Guard do?

The Infinite Innovations Sneeze Guard is a high-quality and simple solution for any transportation industry professional who wants to create a safe barrier between drivers and passengers limiting exposure to any airborne germs.

The Only Vehicle-Specific High-Quality Shield That Features Our Optional Tissue and Business Card Holder!

Made of clear polycarbonate, the Sneeze Guard is practically indestructible, creating added safety for the driver. Unlike acrylic, it has 250 times the impact resistance of glass and will not break or shatter.

Simple to install in just a few minutes by attaching the shield with two buckling heavy-duty secure straps to the vehicle's front headrests.

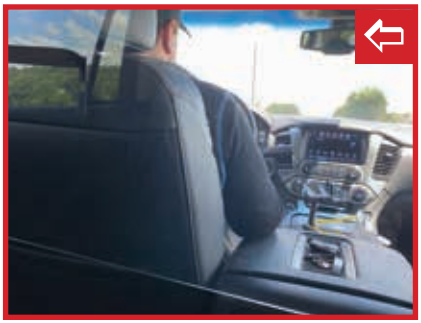
Our Sneeze Guards are vehicle specific to ensure a secure fit, leaving no large gaps like the generic universal-style shields. A high-quality product that stands apart from the one-size-fits-all flimsy style shields.

Visit www.infparts.com to watch how simple installation is!

What makes our Sneeze Guard stand apart from the rest?

Custom Secure Fit

A vehicle specfic fit ensures maximum coverage, leaving no large gaps like the generic universal-style shields. We carry stock on the most popular models but **we can make a custom shield for ANY vehicle!**



NEW
INFINITE PRODUCT

Sturdy

Simple one-piece shield installs by attaching the two heavy-duty securing straps to the vehicle's front seat headrests for **a secure and sturdy fit.**

Quality

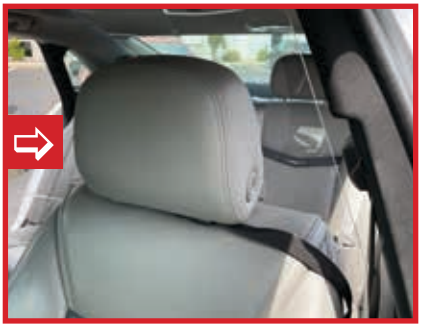
Made of sturdy polycarbonate material, it is nearly indestructible, creating added safety for the driver that flimsy styles do not. Unlike acrylic, it has **250 times the impact resistance of glass** and will not break or shatter.

Visibility

Offers a transparent barrier with **excellent see-through visibility.**

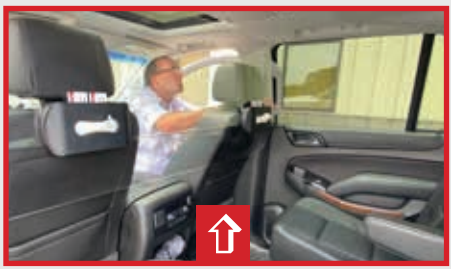
lyft
Uber

PERFECT FOR RIDESHARE SERVICES LIKE UBER AND LYFT!



Optional Tissue Holder

Headrest-mounted tissue & business card holder can be added for **additional passenger convenience and a more polished and professional look** by hiding the mounting holes and straps.



Easy Installation

Lightweight enough that it can **easily be installed** by one person in just minutes.

Insert the strap into the male side release buckle with the side that has indentations facing up as shown in the picture.

The strap only holds when pulling parallel to the male side release buckle.

Then insert the strap into the male side release buckle through the slot as shown in the picture.

The strap releases easy when pulling not parallel to the buckle.

- Size: 12-1/4" x 5-1/2" PART#: AC1040
- Size: 12-1/4" x 2-3/4" PART#: AC1042

Refrigerant HOSE

Refrigerant hose available in standard or reduced barrier style

(Available in #6, #8, #10 and #12 sizes)

Refrigerant Solenoid VALVE

- Turns on/off refrigerant flow to the additional HVAC unit
- #6 MIO fittings PART#: AC1008

Inline/Receiver/Drier/ Filter

#8 MIO fittings PART#: ACHDW122

#6 MIO fittings PART#: AC1085

Expansion VALVE

Replacement for air-conditioning system #6 & #8 MIO fittings

PART#: AC1007

Vertical RECEIVER/ DRIER / FILTER

With top sight glass. Replacement for air conditioning system. #6 and #8 MIO fittings

PART#: AC1090

High Pressure SWITCH

Regulates pressure to protect the automotive A/C compressor

PART#: ACHDW051

2-Ton EXPANSION BLOCK

PART#: ACHDW115

HEATER HOSE AVAILABLE, SEE PAGE 36

We carry a large line of specialty fittings from OEM to rare!

FITTING STYLES AVAILABLE SIZES RANGE #6 TO #12		
	• Beadlock	• Specialty
	• Springlock	• EZ Crimp
	• Suction	

CUSTOM MANUFACTURED HOSE ASSEMBLIES AVAILABLE WITH ANY FITTING, IN ANY LENGTH.

AC Hose installation or replacement made simple.

EZ Crimp
By: Infinite Innovations

SAY GOODBYE TO LARGE BULKY BEAD LOCK CRIMPING TOOLS. OUR FITTINGS ALLOW YOU TO BE ABLE TO INSTALL THEM INTO THE MOST DIFFICULT AND TIGHTEST PLACES WITH A CRIMP PEX CLAMP TOOL.

Standard 5/8" HEATER HOSE
PART#: ACHOS018

Electric VACUUM SWITCH
12-volt activated vacuum switch is used to open your valve for water flow to your A/C and heat HVAC unit.
PART#: AC1012

Vacuum TEE
- 3/8" x 1/8" universal

PART#: ACHDW060

Vacuum Controlled WATER VALVE
- 4-port: 1 inlet, 3 outlet
- Four 5/8" hose connections
- 1 left, 3 right PART#: AC1019

Vacuum Controlled WATER VALVE
- 4-Port: 1 inlet, 3 outlet
- Four 5/8" hose connections
- 2 left, 2 right PART#: AC1025

Vacuum Controlled WATER VALVE
- On/off water valve for heating system
- Normally closed, vacuum opens
- 5/8" connections

PART#: AC1013

Vacuum Controlled WATER VALVE
- On/off water valve for heating system
- Normally closed, vacuum opens
- 5/8" connections

PART#: ACHDW120

Manual Controlled WATER VALVE
- Manual on/off controlled to vary heat temperature
- Two 5/8" hose connections

PART#: AC1020

Cooling Fan THERMOSTAT CONTROL
The capillary tube inserts into the radiator coil to sense temperature to activate cooling fans. PART#: ACHDW049

Variable Controlled Motorized WATER VALVE
- Two 5/8" hose connections

PART#: AC1026

Brass Liquid SOLENOID VALVE
12VDC is applied to the 5/8" two terminals, the valve opens and water can flow
PART#: ACHDW080

Brass Liquid SOLENOID VALVE
12VDC is applied to the two 5/8" terminals, the valve opens and water can flow.
PART#: AC1014

Bosch WATER PUMP with Connector
- Electric auxiliary water pump

PART#: ACHDW043

Heavy-Duty Water BOOSTER PUMP
- Electric auxiliary water pump

PART#: AC0994

Universal 16" x 24" A/C CONDENSER

- Condenser Model: Parallel flow
- Core Size: 16" H x 24" L x .79" D
- Inlet Fitting: MIO #8 (5/16")
- Outlet Fitting: MIO #6 (13/32")

PART#: AC0981

Universal 14" x 21-3/4" A/C Condenser

- Condenser Model: Parallel Flow
- Core Size: 14" H x 21-3/4" L x 1-1/4" D
- Inlet Fitting: MIO #8 (5/16")
- Outlet Fitting: MIO #6 (13/32")

PART#: AC0300772

Universal Under Vehicle MOUNT CONDENSER

- Under vehicle mount style with protective metal housing
- Size: 28.375" Top Length x 12.375" T x 4.125" W
- Inlet Fitting: MIO #8 (5/16")
- Outlet Fitting: #6 (13/32")

PART#: ACCON042

Cooling Fan TIE KIT

PART#: AC0997

Universal Compact Fan and A/C CONDENSER ASSEMBLY

- Efficient parallel flow-coil design rated at 20,000 BTUs
- Dual 9" straight blade pusher fans producing 1,200 CFM
- Compact Size: 11" H x 21-1/2" L x 3" D
- #8 MIO inlet and #6 MIO outlet

Condenser Only PART#: AC1002

Dual-Wheel HVAC BLOWER ASSEMBLY

- Fits MX9 and Max-Air 9/780 CFM

PART#: ACBLW009

Large Dual-Wheel HVAC BLOWER ASSEMBLY

- Used in most buses/735 CFM

PART#: ACMTR020

Spal Dual-Wheel HVAC BLOWER ASSEMBLY

- Fits: X-Press/407 CFM

PART#: ACMTR015

- Fits: Max-Air 1/478 CFM

PART#: ACMTR001

Spal Dual-Wheel HVAC BLOWER ASSEMBLY

- Fits: Turbo II, Vortex and Max-Air 3/637 CFM

PART#: ACBLW002

Dual-Wheel HVAC BLOWER ASSEMBLY

- Fits MX11 and many older units

PART#: AC1059

- Replacement 3-speed motor

PART#: AC1004

Spal Single-Wheel HVAC BLOWER ASSEMBLY

- Fits Turbo, Vortex and X-Treme/300 CFM

PART#: AC3010

Single Shaft BLOWER MOTOR

- Replacement single-speed blower motor
- Fits MX9 and Max-Air 9 units

PART#: AC1060

Revolutionary Light Engine LED Module

The driving force behind our 900 Series coach lights

The Light Engine module is a super bright, sealed waterproof and removable light source which is rugged, durable and brings an unprecedented level of reliability to our coach lights. Add a second light engine at any time to convert into a dual light, making it the brightest available on the market. Features advanced chrome plating to avoid tarnishing and a light guide with more exposure from all angles.

[Plastic track 15ft section]
10mm Light Track PART#: ELP0314
[Plastic track 15ft section]
10mm Ribbon Light Track w/ Frosted Cover
[Aluminum track 6 ft section]
PART# ELP0280

White LED RIBBON TAPE LIGHT

- Size: 8 mm or 5/16" wide
- (60) 3528 LEDs per meter
- Voltage: 12VDC
- Current: .24 amps per 1 meter length

PART#: ELP0341 [White w/White PCB]
PART#: ELP0320 [White w/Black PCB]
PART#: ELP0325 [White w/Black PCB w/ Waterproof Coating]

RGB & RGBW LED RIBBON TAPE LIGHT

Each set of RGB groups display nearly the entire visible spectrum and can be controlled by a single mode controller that produces a smooth transition between them, or by a multi-mode controller that features distinct selectable control modes.

- Size: 10 mm or 3/8" wide
- (60) 5050 LEDs per meter
- Voltage: 12VDC
- Current: .52 amps per 1 meter length
- RGB or RGBW Controller required or installation

PART#: ELP0342 [RGB w/White PCB]
PART#: ELP0338 [RGB w/White PCB w/ Waterproof Coating]
PART#: ELP0315 [RGB w/Black PCB]
PART#: ELP0327 [RGBW w/White PCB, 5/8" W w/ Waterproof Coating]
PART#: ELP0329 [RGBW w/White PCB, 7/16" W]
PART#: ELP0318 [4-in-1 Chip RGBW w/White PCB, 5/8"]

High Speed Large CURRENT RGB AMPLIFIER

Increase the number of rolls of LED Ribbon Lights used with your controller. Run up to 4 rolls of ribbon light per controller rather than the average 2 rolls with just a standard controller. Output: 8 amp PART#: ELP0351

RGB Controllers

LED Touch Panel Full-Color Controller is a new high-end dimmer used for controlling a variety of LED lights. This multi-function controller enables you to change colors, adjust brightness and color temperature in a fast and simple way. With a high precision capacitance touch control chip, touch sensitivity is increased and mistake triggers are reduced. Adopting a glass panel design, it is both fashionable and colorful in appearance. Perfect for mounting on the wall along with all your other switches for quick convenience. Available for both RGB and RGBW style ribbon lights.

RGB CONTROLLER

- 3-Channel Output
- 4 amp per Channel Output
- Max 10 meter LED light strip
- 12 VDC, 6-wire hookup

PART#: ELP0346

RGBW CONTROLLER

- Maximum 10 Meters of RGBW
- Light Strip 3-Channel Output
- 8-Wire Hookup

PART#: ELP0330

RGB CONTROLLER with Remote

Controller features 16 colors and 4 different light control functions: Flash/Strobe/Fade/Smooth. Capable of powering up to two 5-meterrolls of RGB LED Light Strip. System includes a hand-held RF wireless control. Controller Specifications: 3 channel output, 8 function keys, 12VDC, 6-wire hook-up. Size: 4-3/4" L x 2-1/8" W

PART#: ELP0344

LITESYNC RGB DRIVER

Driver features 16 brilliant light patterns as well as "Go to White" mode when doors open. Capable of powering up to 128 feet or 20amps of RGB LED ribbon tape light strip. Driver can function by three different methods; our LED-RGB-KP controller keypad, with our Smart Touch or Horizon Electrical System or with your own control switches. Size: 4" L x 1" H x 2-1/4" D

PART#: LED-RGB-MOD

RGB Controller KEYPAD

Allows you to control the LED light show from anywhere in your vehicle by easily scrolling between 16 light show options with dimming capability.

- Backlit by LEDs—illustrates lighting patterns selected
- Allows hook-up of multiple keypads for larger vehicles
- Easy 1-wire connection.
- Custom engraved faceplates available

Note: Keypad only works in conjunction with Litesync RGB driver.
Size: 6" L x 2-3/4" H x 1" D

PART#: LED-RGB-KP

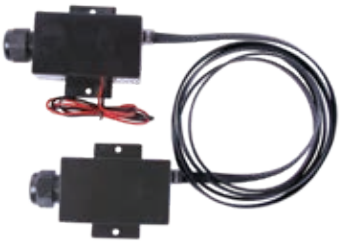
DUAL PORT ILLUMINATOR with Remote

Creates a dazzling array of lighting shows in your vehicle featuring long lasting super-bright LED illumination. Now with remote control to easily change lighting features!

Features:

- Multiple lighting patterns
- No bulbs or wheels to change
- Large optical ports
- Low amperage draw,
- Simple 2-wire hookup with versatile mounting

Compatible with both styles of fiber. *Note*: End point fiber will experience color variation when using remote. Specs: 35 watts, 12 volts, .3 amps. Mounts with 4 screws into unit brackets. Size: 5" L (7-5/8" with brackets & ports) x 3-1/2" W x 1-3/4" H. 10-16 volts. Port Sizes: 5/8"-3/4" PART#: FO2000
For Remote Replacement PART#: FO2000 REMOTE



ELP0490

ELP0510

Note: The remote switch allows box functions to be controlled away from the box. Install anywhere using remote cable from box to switch.

Linking Box LED ILLUMINATOR SYSTEM

The LED Linking Box Illuminator system offers a way to link illuminator boxes throughout the vehicle, eliminating the need to run long strands of fiber optic cable, for a synchronized lighting effect using low amperage, super-bright amped LEDs. Works with either end point or side glow fiber. Connect up to 6 linked box remote units to the master unit for multiple sources of synchronized lighting. Uses modular cables and polarity-protected power wires for fast, trouble-free installation. Mounts with 4 screws into unit brackets. Port Size: 1" Box Size: 2-1/8" W (3-1/2" W with brackets) x 6" L x 2-1/16" H Specs: 12V, .7 amps
Master Twinkle Box PART#: ELP0490
Remote Twinkle Box PART#: ELP0492
Remote Switch For Synchronized Control PART#: ELP0510
Note: Link and remote cable available in multiple sizes. *Please visit us online for more information.*

DUAL PORT ILLUMINATOR W/ AUDIO INPUT

Offers two ports, one port using LEDs to replicate a color wheel, meant for side glow fiber accents and the other creating a starlight twinkle effect for end point fiber. All illuminated by LEDs. Includes an RCA controlled audio input. Mounts with 3 screws into unit brackets. Size: 10" L x 4-1/8" W x 3-5/8" T. 10-16 volts. 1 Amp. Port Size: 1"

PART#: ELP0530

Note: Replacement parts for older style halogen light boxes available online.

Single Port LED TWINKLE LIGHT BOX

Our multi-color light box uses 5-RGB LEDs for the twinkle starlight effect and offers 3 color twinkle shows set to emit a constant changing sequence. Its large optic port support multiple strands of fiber optic cable. Low amperage-draw and less heat. Size: 4-1/2" L x 3-7/8" W x 2-1/8" T

PART#: LBT0449

RGB BULLET

RGB Bullet provides a simple way to add single strands of side glow fiber accents throughout the vehicle; anywhere 12V power is present with a simple 2-wirehook-up. Multiple sizes available in slow or fast fade options. See website for various sizes and options.

PART#: ELP03557M [7MM Slow Fade]

PART#: ELP0360 [7MM Fast Fade]

Custom Mirrored CEILING PANELS

Made to your size and fiber point specifications. All mirrored ceiling panels consist of 1/8" mirrored Plexiglass glued to 1/4" plywood that is 1" wider on all sides. To protect the mirror during shipping, a wood frame is attached to the wood border. This frame can be removed or used installation. Max size 4 ft. x 8 ft. Larger panels can be spliced together. Each panel comes with a 10 ft tail of fiber optic cable.

ALL MIRROR PANELS ARE CUSTOM MADE TO YOUR SPECIFICATIONS.

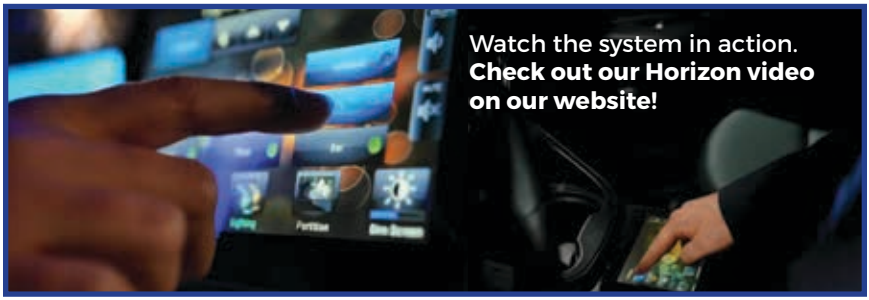
Our Latest Electronic Control System - "HORIZON"

The Horizon system sets the precedent for the future of electrical control systems in the ground transportation industry. Easy to access and use, these new and improved 7" display screens provide quick access to control the vehicle environment with a simple touch of a button. Allowing both drivers and passengers to easily control multiple lighting applications, climate control, entertainment, partition, and intercom access.

The Horizon is your source for having a reliable and easy-to-operate electrical system for customers to enjoy the utmost personal experience. Add convenience and value to your older car by bringing it into the 21st century or request your builder to include the Horizon in your new car.



THE LATEST FEATURES IN ELECTRICAL CONTROL SYSTEM TECHNOLOGY

High-resolution touch screens utilize capacitive touch technology for improved performance and ease of use. The new screens offer higher-brightness and a wider viewing angle than previous systems. High-end graphics on these large screens provide a modern and stylish appearance that compliments any vehicle interior. Accessible, versatile and easily custom-programmed to personalize your menu.

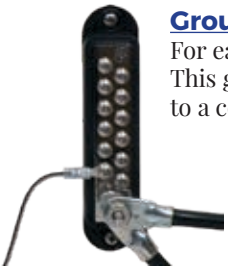
Display personalized greetings and background images specific to the occasion. Your client's name, along with their chauffeur's name, will be displayed on the passenger panel to add that personalized touch. Choose from a variety of backgrounds or upload your own custom company logo or pictures. Record a default setting of each screen to have your settings return to your preferences with one touch of a button.

All AV functions on stereos and TVs with IR can be controlled through the screens. An infrared receiver (IR) has been added to the 7"display, allowing it to work as a universal remote that controls any stereo or TV that comes with IR remote.

Complete Horizon System includes Input Output Module (IOM), two 7" displays, two display wiring harnesses, two microphones, two intercom speakers, power Solenoid and an installer/operator manual.
PART#: HORI0010

UPGRADE YOUR SMART TOUCH V2.0 TO HORIZON!
Upgrade Kit includes: Two 7" Horizon touch control screens, harnesses and USB with software and upgrade instructions.
PART#: HORI0015

Note: Horizon is currently available to all vehicle builders and comes with an unlimited mile 12-month warranty on parts and labor, and is supported through Infinite's friendly technical support team. Warranty is only valid when the system is used with the provided Solenoid.



Grounding BUSS

For easy installation of Horizon or Smart Touch Systems, This grounding block makes it simple to locate all grounds to a common location. Sold separately. PART#: SMT7001

Electrical System POWER SOLENOID

200 amp heavy-duty power solenoid with voltage spike suppression. Compatible with Horizon and Smart Touch V2.0 systems.
PART#: SMT004581

Smart Touch Version 2.0 Electrical Control System:

REDEFINING THE WAY YOU RIDE

Now including automatic temperature control, universal remote control, external switch capability, updated graphics, improved performance and more! Allows clients and drivers to efficiently control climate, entertainment, privacy, lighting, intercom and more!

Features:

- Full audio/video controls
- Branding and custom client screens
- Automatic temperature control
- Easy touch control of complete environment

COMPLETE SMART TOUCH V2.0 SYSTEM

Includes Input Output Module (IOM), one 4.3" driver display, one 7" passenger display, display wiring harnesses, two microphones, two intercom speakers, power Solenoid and an installer/operator manual. PART#: SMT007020
Complete System available with dual passenger screens: PART# SMT007775

REPLACEMENT SCREENS, IOM, PLUGGABLES, LIGHT DRIVER, HARNESSES AND MORE AVAILABLE. REPLACEMENT PART DETAILS AVAILABLE ONLINE.

FOR REPLACEMENT OR REPAIR ASSISTANCE, CONTACT OUR FRIENDLY SUPPORT STAFF AT (800) 362-6224

Optional WI-FI MODULE

The optional Smart Touch wi-fi Module works with any Smart Phone, Tablet or PC that has wi-fi and browser capability. *Note*: the module itself does not provide wi-fi, but connects your wi-fi device to the Smart Touch V2.0 System. PART#: SMT005550

Hands-Free INTERCOM ASSEMBLY

- One-touch control from front or rear positions activates both stations for true hands-free operation
- Hands-free stations may be located up to 25 feet apart
- Includes amplifier module, speakers, remote mount microphones, separate dual-volume controls, switch assemblies and complete installation instructions
- Module Size: 4-1/2" W x 5-1/2" L x 1-1/2" H

PART#: M-INT-SY256

A GREAT OPTION FOR STATES THAT HAVE OUTLAWED PHONE USE IN VEHICLES!

Public Address INTERCOM ASSEMBLY

- Designed for tour guide vehicles
- Allows the driver to communicate hands-free to passengers in the rear of the vehicle
- Includes amplifier module, one electret condenser microphone assembly, two speakers for placement at desired points in rear cabin, volume control, and complete installation instructions.

PART#: M-INT-SY256P

Also available in a Perimeter Monitor option

PART# M-INTSY256M

Hidden INTERCOM ASSEMBLY

- Allows discreet, hands-free monitoring in one direction
- Switch A is a three position switch that allows you to monitor hands-free in the "on position" and talk in the momentary position
- Switch B is a push-to-talk switch
- Module Size: 5" L x 2-1/2" W x 1-1/8" H

PART#: ELP7030

Extended microphone:

PART#: ELP7026

Two-Station INTERCOM

- Auto-paging when receiver is lifted
- Slim-lined self-contained handset is attractive enough to mount in any visible location
- May be mounted horizontally or vertically
- Mounting brackets included

Phonecom INTERCOM

- 12VDC, 4-Wire hookup
- Size: 8-1/2" L x 3-3/4" W x 3-1/4" T
- Color: Black

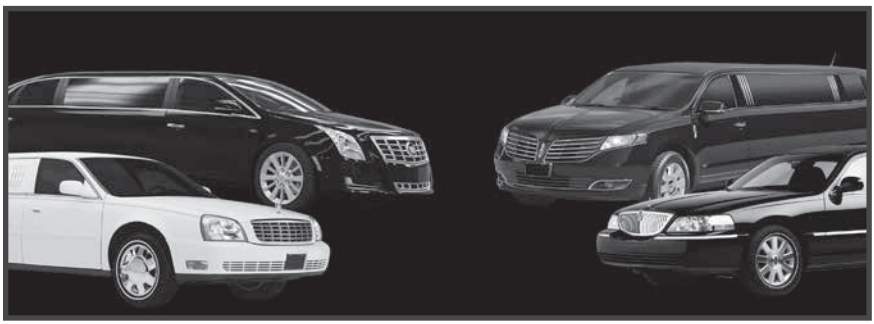
Accidents happen—We have your replacement parts!

REPLACEMENT MOLDINGS, GLASS, PANELS, DOOR PARTS AND MORE FOR MOST LIMOUSINE MODELS.

Since 1987, Infinite Innovations has been a leading supplier of auto parts and accessories for the limousine, funeral car, and specialty vehicle industry. Unlike our competitors, we are the only central stocking warehouse for coach built vehicle parts authorized by both GM and Ford. This means Infinite is set up with special direct purchasing, ensuring that our customers receive the parts they need at competitive prices.



FOR 35 YEARS, WE HAVE SUPPLIED THE COACH BUILDERS WITH THE PARTS TO BUILD THE VEHICLES. THE BUILDERS TRUST US—YOU SHOULD, TOO!

BUY YOUR REPLACEMENT PARTS DIRECT!
VISIT US ONLINE OR CALL US AT (800) 362-6224 TO SOURCE YOUR REPLACEMENT STRETCH PARTS.

Replacement Molding Reference

THESE PARTS AND MORE AVAILABLE FOR DIFFERENT MODELS OF LIMOUSINES, INCLUDING LINCOLN TOWN CAR, MKT AND CADILLAC DEVILLE, DTS AND XTS.

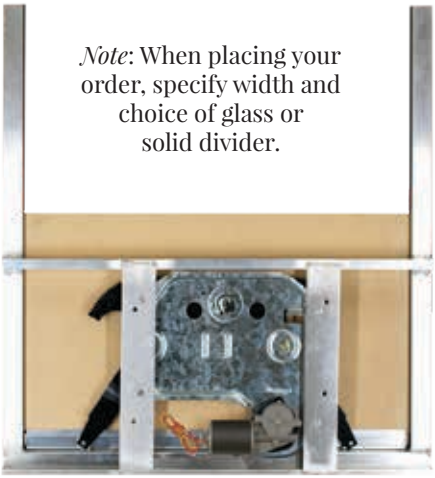
INFINITE INNOVATIONS

IF WE PUT THE INFINITE NAME ON IT, YOU CAN BET IT IS THE BEST QUALITY YOU WILL FIND.

Infinite is the Leading Manufacturer of Partitions for Numerous Industries

OFFERING PARTITIONS IN SINGLE GLASS, SINGLE SOLID AND DUAL CONFIGURATIONS

Made of lightweight, strong, aluminum-welded construction. Powered by an exact reproduction of the Ford regulator for lifting heavy flat-screen monitors. *Custom sizes are available.*



Note: When placing your order, specify width and choice of glass or solid divider.

PARTITIONS With Gear Drive Regulator

All aluminum welded frame construction features high strength aluminum for weight savings. We manufacture this style in multiple width sizes with the option of using a single solid or glass division, or upgrade to our dual divider with both solid and glass in the same partition. With our heavy duty gear drive regulator and high output motor, you have the ability to lift components attached to your divider such as a flat screen TV. This regulator has a lift capacity recommended not to exceed 45 additional lbs. when adding components to your solid.

WE CARRY A LARGE SELECTION OF PARTITIONS!

Hex Style Bier Pin & Plate Conversion Kit

FC6010

Our bier pin and plate kit allow you to convert your hearse set-up to our high-quality 5/8" hex-style bier pins & holders. Our hex-style bier pin assemblies insert into hex-style bier pin plates, gently holding a casket in place with a soft rubber pad that will not damage or scratch the casket while in motion. Our pins and plates are heavy-duty chrome-plated to avoid chipping and offering an attractive chrome finish.

KIT CONTAINS:

- Two (2) 8-hole hex plates
- One (1) Stationary bier pin
- One (1) Adjustable bier pin
- One (1) storage socket

See all of our products on **www.infparts.com!**

Casket Roller Conversion Kit

FC6000

All of our rollers are made with heavy-duty chrome plating to withstand heavy usage. The rubber roller inserts are made to last and not peel. The material used is a mixture of different rubbers tested to ensure that rollers hold up and do not separate. Kit contains a complete set of rollers to help the casket to roll effortlessly in and out of the vehicle. Two 90-degree right-angled rollers go at the opening of the hearse deck, followed by the flat rollers to the front of the cab.

KIT CONTAINS:

- Eight (8) Flat Roller Assemblies
- Two (2) 90-Degree Right-Angle Roller Assemblies

Our roller frame assemblies for hearse rear decks allow caskets to roll effortlessly in and out of the vehicle.

All of our casket rollers are made with heavy-duty chrome plating to withstand heavy usage. The rubber roller inserts are made to last and not peel. The material used is a mixture of different rubbers tested to ensure that casket rollers hold up and do not separate.

Single Casket Roller Frame Assembly FC1000

- 11-1/4" L (corner to corner)
- 11-3/4" at longest point x 3-3/4" W
- Installs with 4 screws

* *Screws sold separately*
FC1002

Replacement Casket Roller and Bushings FC1070

- Replacement rubber roller and bushings for both single and 90 degree style casket roller assemblies.
- Our rubber roller inserts are made to last and not peel
- The material used is a mixture of different rubbers tested to ensure that casket rollers hold up and do not separate.
- 9.75" length

90 Degree Right Angle Casket Roller Frame Assembly FC1010

- Angled at 90 degrees to be used at the opening of rear deck
- 11-1/2" L x 2-1/2" W x 1-9/16" T
- Installs with 4 screws

* *Screws sold separately*

HEX STYLE BIER PINS

Our hex style bier pin assemblies insert into hex style bier pin plates, gently holding a casket in place with a soft rubber pad that will not damage or scratch the casket while in motion.

Stationary Style "Casket Stop" Bier Pin Assembly FC1045

Our hex style bier pin assemblies insert into hex style bier pin plates, gently holding a casket in place with a soft rubber pad that will not damage or scratch the casket while in motion. Part features heavy-duty chrome plating stands up to heavy usage without chipping.

- **Pad Size:** 5-3/4" L x 3" W
- **Fits:** 1/2" diameter hex insert

FC1045

Quick Release Adjustable Style Bier Pin Hex Assembly FC1040

- New easy grip ergonomic handle allows you to adjust the pad as needed
- Bier pin has double threaded technology which means for every turn of the knob, you are moving twice the distance to help speed up the loosening and tightening of the bier pin
- Easy push button adjusts end plate quickly against the casket
- Pin fits firmly into plate with added Nylon washer for a more secure fit with no rattle
- **Pad Size:** 5-3/4" L x 3" W
- **Fits:** 1/2" diameter hex insert

FC1040

These heavy duty chrome plates will give you the peace of mind of making sure that your cargo is secure and safe when used with a bier pin assembly to hold casket stationary.

8-Hole Hex Bier Pin Plate
FC1020

- Attractive chrome finish
- Eight (8) 5/8" hex shaped holes for adjustable lengths
- 17" L x 2" W
- 1-3/8" space between holes
- Installs with 4 screws
  * *screws not included*

4-Hole Hex Bier Pin Plate
FC1025

- Attractive chrome finish
- Four (4) 5/8" hex shaped holes for adjustable lengths
- 9-1/4" L x 2" W x 1" T
- 1-3/8" space between holes
- Installs with 2 screws
  * *screws not included*

Casket Skid Plate FC1030

- Designed to help move your cargo forward without hangups and snags.
- The ends of the slides have rounded radius corners to make it easy for the movement of entering and exiting your cargo.
- Installs by snapping into place
- Attractive chrome finish
- 11" L x 1-11/16" W x 3/4" T

Single Bier Pin Storage Socket FC1050

- Stores 1 hex style bier pin while not in use
- Installs on side of rear deck for ease of access
- Attractive chrome finish
- 1/2" dia. hexagon socket

Bier Pin Hex Stop for Pull Out Tables
FC1055

- Secures rear deck pull out table when not in use
- Installs into hex style hole in sill plate area
- Attractive chrome finish
- 2-1/2" L x 1" dia. pin with 1"L x 1/2" dia. hexagon

ROUND STYLE BIER PINS

Our round-style bier pin assemblies insert into round hole with bier pin plates, gently holding a casket in place with a soft rubber pad that will not damage or scratch the casket while in motion.

FC5000

Quick Release Adjustable Style Bier Pin ½" Round

FC5000

Are you tired of cranking and turning old bier pins to lock the casket into place, then have to crank it some more to release the casket? The quick release bier pin is designed to allow you to quickly tighten or release your bier pin. Just push the button on top to release, slide to your needs and a quick turn to tighten. Includes a rubber grip on handle for easy turning.

- **Pad Size:** 5-3/4" L x 3" W
- **Fits:** 1/2" diameter round hole

Stationary Bier Pin ½" Round

FC5010

- **Pad Size:** 5-3/4" L x 3" W
- **Fits:** 1/2" diameter round hole

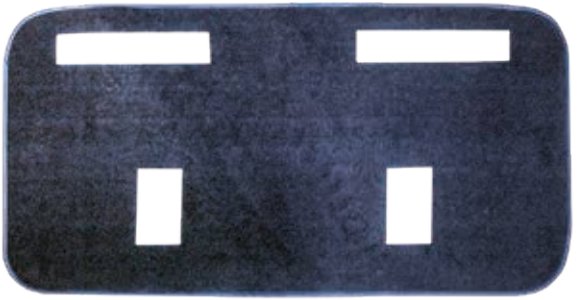
S & S and Superior Bumper Protector

FC3003 (Black)
FC3001 (Blue)



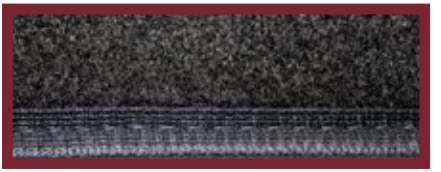
Heavy-duty bumper protector is designed to accommodate S&S and Superior DTS hearses with roller cut outs specific to these hearse models. This heavy-duty bib will protect your bumper from scratches and dings from the continuous loading and unloading of caskets.

The protector easily installs under casket rollers to secure in place. Conveniently folds up into the back when not in use, then simply flip out the protector over the bumper when ready to use.

All Bumper Protectors feature:

- **Color:** Black or Blue
- **Material:** Commercial grade-cut pile carpet
- **Specific fit for 2006-2011 S&S and Superior Cadillac DTS hearses**
- **Size:** 42" L x 21" T

Backing



Nylon binding and commercial-grade carpet

Our commercial grade bib protectors are designed for heavy traffic entryways. It is a high-density polypropylene cut pile yarn, permanently fused to a heavy black vinyl base. The construction of our bumper protector makes them reusable time after time.

Universal Bumper Protector

Heavy-duty bumper protector is universal and can be customized by the end user by cutting holes specific to their hearse roller layout. This heavy-duty bib will protect your bumper from scratches and dings from the continuous loading and unloading of caskets.

With our universal bumper protector, you can cut out mounting holes to custom fit to any hearse. Measure your roller layout and cut accordingly. First, remove the rollers and measure the cut outs. Second, cut matching holes into the bumper protector. Third, reinstall the rollers on top of the bumper protector securing it in place as shown in the image above. Conveniently folds up into the back when not in use, then simply flip out the protector over the bumper when ready to use.

- **Color:** Black or Blue
- **Material:** Commercial grade cut pile carpet
- **Universal fit:** Customized by end user to fit any model hearse
- Installs under casket rollers
- **Size:** 41 3/4" L x 22 7/8" T

FC3002 (Black)

HEADREST TISSUE HOLDER

With a sleek design, it is both a durable and tasteful choice for any vehicle interior. It holds our smaller more convenient sized tissue packs to avoid large bulky boxes that easily get in the way.

This tissue holder snugly secures to the back headrest with a one-step, easy to install elastic band and clasp. This tissue holder is the solution to offering easy access of tissues to your passengers in a convenient and organized manner, while also advertising your business cards.

- Universal fit for most vehicle headrests
- Installs with elastic band and clasp
- Easy to clean
- Offers 2 slots for business cards
- Easy to refill, pop open front
- Size: 9.76" L x 4.56" W x 1.49" D

Headrest Tissue Holder
CHA1700KIT
Refill Tissue Packs
CHA1702

Simple to refill, just insert finger into tissue opening and pull front open.

Made of clear polycarbonate, the Sneeze Guard is practically indestructible, creating added safety for the driver. Unlike acrylic, it has 250 times the impact resistance of glass and will not break or shatter.

Simple to install in just a few minutes by attaching the shield with two buckling heavy-duty secure straps to the vehicle's front headrests.

Our Sneeze Guards are vehicle specific to ensure a secure fit, leaving no large gaps like the generic universal-style shields. A high-quality product that stands apart from the one-size-fits-all flimsy style shields.

Visit www.infparts.com to watch how simple installation is!

The only vehicle-specific high-quality shield that features our optional tissue holder and business card holder.

Umbrellas

Customized Umbrella
CHA0200-CUSTOM

Umbrella CHA0200

Our 60" canopy, chauffeur-style umbrella is large enough to completely cover and protect your clients from the wind and rain.

This umbrella is ready for harsh winds and storms with a durable reinforced canopy, eight sturdy fiberglass ribs and heavy-duty nylon panels. Comes in a stylish black color for any occasion. The fiberglass frame provides more sturdiness and will not bend or break in high winds like the cheap metal compact versions.

Logo Customization Available!

New 12” Stainless Steel FLAGSTAFF

We saw a need to offer a higher standard of flagstaff assembly to the industry—and we delivered!

No more clips to pop off! Does not wobble while installed. Thumbscrew positioned to keep flags secure and avoids bunching.

Includes:

- 12” Polished stainless steel 1/2” pole
- Thumb screw for securing flag to pole
- Studs to fit 3/8” to 1/4” mounting holes
- Mounting nut

FC1100

Thumbscrew for securing the eyelet to pole

Staff easily unscrews when not in use

1/4” mounting stud

3/8” adapter mounting stud bolt

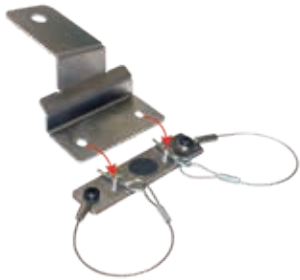
Mounting nut

The future of vehicle flagstaff kits has been reinvented with more convenience—

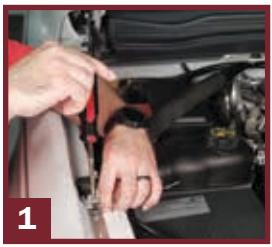
INTRODUCING THE NEW REMOVABLE MOUNT KIT!

This easy-to-remove flagstaff bracket prevents any worries about annoying and unattractive brackets sticking out and snagging anything when your flagstaff is not in use.

The mounting kit includes a base plate that is mounted to the fender with two (2) screws and a flagstaff bracket that installs onto the base plate pegs and is secured with two (2) retaining clips. Just simply remove the clips to easily remove your bracket!



FIVE EASY STEPS TO INSTALLING YOUR REMOVABLE MOUNT KIT!



1. Secure the mounting base to the inner fender
2. Place mounting bracket over the base
3. Secure bracket with retaining pins
4. Place flagstaff into mounting hole and screw to secure
5. Install flag and close hood

REPLACEMENT PARTS

Infinite has over 30 years of servicing the coachbuilders who manufacture the funeral cars. Infinite has been working hard with GM to make the latest platform change possible for builders as we move into the Cadillac XT5 model. We supply the specialty parts for this newest model as well as parts for older models in need of replacement.

Replacement glass for:

- **SPECIALTY WINDSHIELDS**
- **SIDE AND BACK DOORS**
- **QUARTER PANELS**
- **PARTITIONS**

Our 55,000 square foot facility is stocked with funeral car repair parts. We have a full line of trim and body parts, specialty windshields, and replacement glass for hearses and limousines. Infinite has over 30 years of servicing the coachbuilders who manufacture the funeral cars. Infinite purchased the Accubuilt service parts inventory over ten years ago.

Replacement back loading doors, #2 doors and limo side doors available for S&S, Superior, Eureka and other models. Seals, door hardware, rear surrounds, trim and moldings all available in our inventory.

Call our team of experts to locate your funeral car repair part at 800-362-6224!
